

The WSDF was held in Durango during March 5 - 7, 2020 and focused on specific actions which need to be taken as a follow up of the Forum. Hence, each session conducted necessarily arrived at specific policies, advocacy of a range of projects which were identified during the proceedings, indicating where possible what steps have to be taken by various stakeholders. **The Forum was not merely a talk shop but an attempt to be a game changer on global issues identifying very clear actions to be taken**.

Participants were provided with a brief note outlining some of the actions which need to be taken with a sense of urgency. This note was sent to all the participants of the Forum, but in no way limited the nature and content of the discussions that took place in the Forum.

Note:

Keynote address : 10 minutes

Panelists : 6 minutes

Strict monitoring of interventions with a yellow light 2 minutes before allocated time, a red light one minute before and bell going off at the end of allocated time.
